

Advanced Weekend Workshops

Mission Statement:

It is required that you first take the non-advanced Picture Perfect Weekend Workshop with Todd and Brad Reed at the Cartier Mansion before you can sign up for the Advanced Weekend Workshops.

The workshop will begin on Friday evening with a review of technical aspects of shooting on full manual as well as a review of the 20/20 Vision material for building stronger photo composition. This workshop will involve much more shooting time in the field than in the Picture Perfect Weekend Workshop. Some of this shooting will be on your own and some will be demonstrations led by Todd and Brad Reed. This workshop will also involve learning the basics of Adobe Photoshop, digital work flow, and file optimization by Greg Dunn and Brad Reed. On Sunday, there will be a review of images taken during the morning and evening shoots on Saturday as well as a demonstration of some of the Photoshop techniques learned on Saturday with select workshop participant's photos. As with the Picture Perfect Weekend Workshops, all ages and abilities are welcomed. Any digital camera is accepted, just bring your camera manual.
